How the grade for your Journal works...

Dr. Piascik

Practicing regularly is very important in order to develop the skills, muscles, & fun with playing your instrument.

Keep in mind that practicing in small increments is better than practicing all in one day.

This "Practice Journal" is to help you focus and set your goals so you see improvement weekly.

You will be graded at the beginning of every "Academic" lesson. This includes lessons that you miss!
Please make sure you keep track of your journal and have it signed by your parent/guardian every week.

Note: Fill out the FIRST day you practice in "1," second day in "2." This is not by days of the week.

Your "Practice Journal" is **5% of your final grade.**

You start with a total of **12 points**, which equals 100% (5% of final grade)

(Each point is about 8.33% of your "Practice Journal grade)

Each lesson week will be graded as follows:

Practiced, signed, improvement filled out = **NO change in points**

No journal, or not signed, or not filled out = **- 1 point**

Absent from lesson (until journal is shown) = **- 1 point**

Practiced MORE than 60 min. and signed = **+ 1 point**

A max of 3 bonus points (15 total for MP) can be achieved.
